"I actually really like the Learning Center. It is organized in a user-friendly waY, and the videos are very helpful. I particularly like the inclusion of the real world examples because it helps me visualize the form."

Barbara W.

"Launching the learning center has really stepped up Z-Ultimate's program. This is especially helpful to me since I get a little flustered in group settings. Being able to quietly review the material with video and written information is truly formatted for how / learn."
